

**ANC 3F Streets and Sidewalks Committee  
July 2018 Progress Report to ANC 3F Commissioners**

**Streets and Sidewalks Survey Results and Follow-up with DDOT**

In late 2017 the Committee entered approximately 250 items in the DC 311 system as a result of its comprehensive survey conducted in mid-2017. Of those 250 items, about 160 are currently listed as “open” in the DC 311 system. Many sidewalk repair requests appear to have been made, and several pothole requests have been addressed. The Committee has requested a periodic report from DDOT on submitted 311 items that could be sorted by various criteria (by type and by location, for example) to facilitate easier follow-up on requests. We have been awaiting a response from DDOT for several months.

As the chart below illustrates, 68 survey items were not submitted because they were duplicates of other requests. In addition, 40 reported items in the “new infrastructure” category involve requests for new sidewalks. Those requests cannot be processed directly through the DC 311 system, and the Committee is considering how to address them.

**Recent Meetings/Actions**

The Committee met in February, March, and May 2018, but cancelled its planned July meeting. In March the Committee approved a resolution to request a DDOT study of Connecticut Avenue traffic issues (including the reversible lanes). ANC 3F adopted a resolution at its March meeting requesting “a Comprehensive Study of Connecticut Avenue Traffic Patterns and Potential Changes.” (ANC 3C has recently adopted a similar resolution on this issue). At its recent meetings the Committee also discussed traffic enforcement and pedestrian safety issues at several Connecticut Avenue intersections.

<b>Total reported survey issues</b>	<b>362</b>	<b>100%</b>
(@ 250 submitted to DC 311, as noted below)		
<b>Maintenance and Repair (total)</b>	<b>254</b>	<b>70%</b>
<i>Sidewalk Repair (125 submitted, 12 duplicates)</i>	137	38%
<i>Roadway Repair (78 submitted, 37 duplicates)</i>	115	32%
<i>Alley Repair (2 submitted)</i>	2	<1%
<b>Other Issues (total)</b>	<b>108</b>	<b>30%</b>
<i>Traffic and Use (5 submitted, 7 duplicates)</i>	12	3%
<b><i>New Infrastructure (7 submitted, 40 not submitted new sidewalk requests)</i></b>	47	13%
<i>Signage (33 submitted, 3 duplicates)</i>	36	10%
<i>Various topics (4 submitted, 9 duplicates)</i>	13	4%

The Committee has established three working subcommittees:

- 1) 311 survey items (follow-up with DDOT);
- 2) Connecticut Avenue study proposal follow-up; and
- 3) Safety and enforcement issues.

**Summary**

The Committee will continue to: 1) monitor progress on open DC 311 items; 2) monitor the potential Connecticut Avenue study proposal; and 3) follow-up on traffic enforcement and pedestrian safety issues. The Committee’s next meeting will be September 12 at 7 pm.
