							A black Hyundai Ioniq car with Maryland tags sped through the stop sign at 38th & Van Ness (I didn't stop or slow at all) and hit two women who were walking in the crosswalk on the opposite side of the intersection. Thankfully the women were ok, but it was very scary to witness, and could've ended much differently if they were two paces farther into the crosswalk, or if they were smaller people (such as the many children who live in the area).
							The car's tags were Maryland: 6DW107 I think - I have a photo but it's a bit blurry since I took it from across the street.

							I was driving on Van Ness from Reno towards 37th and stopped at the stop sign, signaled a left turn, and began to turn. An oncoming driver who was driving on Van Ness at about 25 mph failed to stop at the stop sign even though I had the right of way. I was luckily able to stop in time and yielded to her instead. I was very lucky not to have been involved in a serious collision.
